(54) Title: METHOD AND APPARATUS FOR IMPROVING WIRELESS COMMUNICATION BETWEEN MOTOR VEHICLES

WO 2005/074167 A2

(57) Abstract: In order to provide a method of improving wireless communication between motor vehicles, wherein the motor vehicles transmit messages to a stationary unit (100), by means of which the exchange of messages is possible even between motor vehicles which are far away from one another, in the stationary unit (100) the received messages are processed and new messages are generated. A corresponding stationary unit (100) is also provided.
